Systemic Coaching Tools

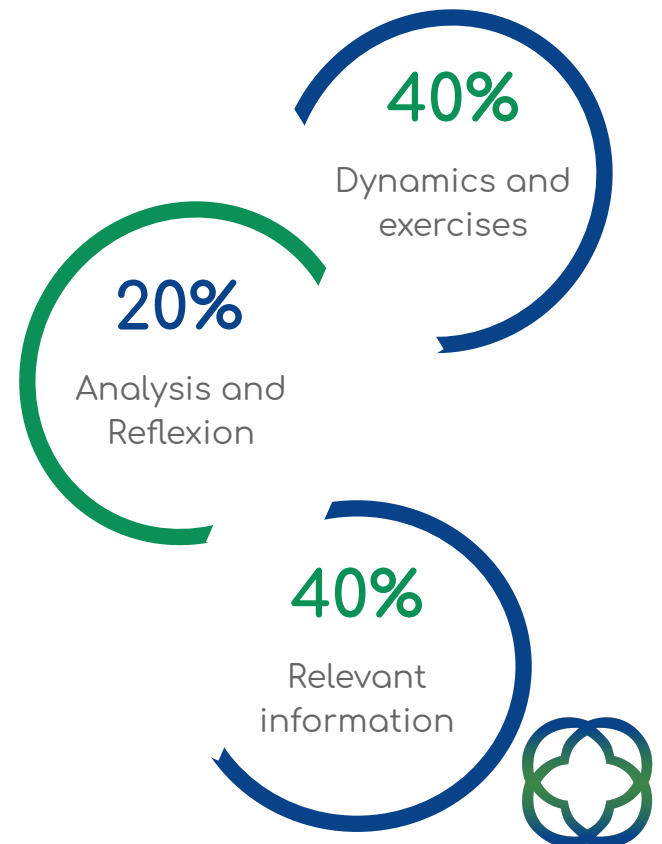

Soft Skills Trainings

The workshops look to increase knowledge, and awareness of a specific competence or behavior at work.

We personalize the information according to the company's values and competencies.

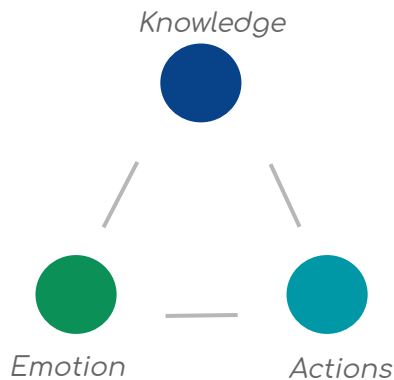

- Communication
- Team work
- Time Management
- Accountability
- Emotional Intelligence
- Leadership
- Feedback

And more

Developmental Programs

The goal is to integrate the knowledge in the three levels of the self in order to generate long lasting results.

Includes:

- Initial evaluation or report.
- Follow up sessions
- Final report of results according to company's expectations

Benefits:

- Help employee to be align with the organizational goals.
- Improve overall effectiveness by generating a new set of competencies
- Improve employee engagement and motivation.

Systemic Coaching Tools

We provide trainings in Systemic Coaching for Coachees, psychologist, or any other professional interested in learning more about this approach and having more tools for working with people.
